### **Bowman Enterprises Awarded New GSA Schedule Contract**

*North Carolina-based document management company chosen to provide document scanning and hosting services for Federal Government clients*

**BENSON, NC – June 14, 2009** – Bowman Enterprises, Inc. (BEI) a Veteran Owned Small Business and leader in digital document imaging, WebXpress™ image hosting and office solutions, today announced that the U.S. General Services Administration's (GSA) Federal Acquisition Service (FAS) awarded BEI a Multiple Award Schedule (MAS) contract under the consolidated schedule.

The contract award (No. GS-03F-0132V) is with GSA's Office, Imaging and Document Solutions Schedule 36 contract group for Special Item Number 51-506 - Document Conversion Services. Under the five-year award, BEI will provide Federal Government agencies with a series of services including the digital conversion from original paper documents including maps and drawings, photographic media, bound books, data, or graphics into digital data, and transferred to a new storage media or hosted applications. These services may include: (1) back file and day-forward conversion, data entry, state-of-the-art scanning, and/or (2) indexing, record storage and certified destruction and web hosting.

Bowman Enterprises, Inc. has been serving the digital conversion needs of federal, state and county governments, the educational community, human resources, financial groups and the medical field for over 40 years. Located in Benson, North Carolina, BEI employs over 150 staff members in a modern 45,000 square foot record management facility specifically designed to provide high-quality document conversion services in a secure operational environment.

BEI archives approximately 150 million pieces of paper each year through the use of advanced digital scanning and archive writing technologies. BEI also archives paper into film (microfilm/microfiche), executable CDs or uploads TIFF and PDF images and index data to a client's server or mainframe over a secure data line (SFTP) or provides image and data access through their WebXpress™ hosted environment.

For additional information and ordering guidelines see the GSA Advantage web site at [www.gsaadvantage.gov](http://www.gsaadvantage.gov)
